

DEWEY BINGO

This pack contains material for 12 players.

Print out and laminate the boards. Print out, cut up and laminate the callout cards.

You will need:

- A game board for each player. (If you have low numbers, playing with more than one board makes it more fun!)
- A bag containing the cut out callout cards
- Counters to cover the squares on game boards. (If game boards are laminated, you can use wipe-off whiteboard pens and whiteboard eraser)

To play:

Pull one callout card from the bag at a time.

Callout the subject and the Dewey number on each card as it is drawn.

Any child with that subject on their board calls out the subject and Dewey number and covers it with a counter.

Put aside drawn cards for checking purposes.

First to cover a line of 3 squares (horizontally, vertically or diagonally) wins. Or if you have time, continue until someone covers their whole board.
